

FOURIERS

High Performance Bike Components

ABOUT US

We are a group of bike riders and a family firm of engineers. We have more than 20 years of experience on the CNC machine works and enriched our knowledge of the material, we choice what is most strong, light and stable material for the Bike Parts. Most of our products are made of strong alloy, carbon and the worldwide well-known plastic raw materials from Swiss.

All of our products are made in Taiwan, that's because we know the quality issue is the most important for all customers, because of our great passion on the bike products, we just have a desire to be a world-class supplier, to develop and fabricate the best bicycle components.
